Title: DashPanel - Codemasters Full Data

Genre: Utilities

Developer:

PyrofrogStudios

Release Date: 5 Jan, 2018

a09c17d780

English

A racing dashboard with a black background and a top row of LED lights in green, red, and blue. The dashboard displays the following information:

- FUEL** 9.7
- LAP** 3/3
- POS** 2/26
- 5** (Large yellow number)
- +1.33** (Orange time offset)
- 0:38.538** (Yellow lap time)
- TYRE WEAR** 100 100
- 8836** (Orange number)
- 100 100** (White tyre wear values)

If you play Dirt Rally, and your panel is not working, you might wanna try this:

1. My document -> My game -> Dirt Rally -> "hardware_settings_config.xml (open the file with word pad)
2. do find "<udf enable="false">" and change it to "true", "extra data="0" change it to "1"
3. save it and close
4. Run your panel and your android device.

it should be working!
